Dear All

Firstly we would like to wish you all a very Happy Christmas and to take this opportunity to thank everyone for their support and custom during our first year of business.

We have had a great 18 months and within the last year introduced lots of new and exciting treatments and products.

We now offer all our gentleman clients the **TRADITIONAL WET SHAVE**, which has proved very popular along with the **SHAVE DOCTOR** products which we use during the shave and recommend as home care products.

So ladies if you're struggling to find the perfect gift this Christmas look no further and book your man *the ultimate traditional wet shave facial, £45.*

We now offer, **CACI FLASH IPL HAIR REMOVAL, THREAD VEIN REMOVAL AND SKIN REJUVENATION** which repairs the signs of sun damage and ageing as well as active acne and scarring. Please contact the salon or check out www.indulgencebeauty.com for more info.

Thank you once again for all your support and let's hope we all have a great 2010.

Gemma & Kelly

CLEAN START BY DERMALOGICA IS NOW AT
INDULGENCE

Who is Clean Start for?

Pre-teens, teens, and young adults can use Clean Start as part of their skin health regimen.

What makes Clean Start different?

Clean Start is not designed simply for the treatment of breakouts and acne. Clean Start is designed to help bring skin into balance by getting skin clean, taking on issues, and protecting for better-looking skin.

If you're in your teens, you are just at the right time to start taking care of your face. It's never too early to start a skin care regime. A good skin care routine is as important as brushing your teeth, Teen skin care differs from adult skin care, so using products such as facial cleansers designed for mature skin won't tackle the unique changes taking place in teenage skin.

Choosing a quality product for your skin as a teenager can help, you'll want to minimise the unwanted side effects of puberty and also set a solid foundation for later years.
